

Symposium and Practical Workshop – “Around the Ankle”

November 2nd, 2017

9AM – 5PM

Venue: Swissotel Tallinn, Tornimäe 3, 10145 Tallinn, Estonia

Main topics:

- Osteochondral lesions of talus
- Peroneus tendons lesions
- Achilles tendon insertion pathologies
- Os trigonum, posterior problems - PT & FHL tendon pathologies.
- Instability of the ankle joint

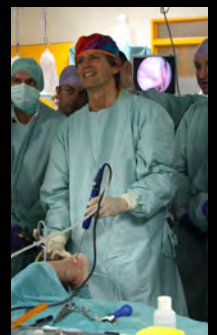

Practical workshop in 5 work stations: anterior and posterior access to the ankle joint

Two coffee breaks and lunch are provided for the participants

The symposium and practical workshop will give the participant the most recent and up-to-date overview about most common sports-related pathologies around the ankle joint

Our invited guest speaker **Prof. Niek van Dijk** is a renowned leading authority for arthroscopic surgery of the ankle and the knee. In particular, he is known for his *Amsterdam Ankle School* (the *Amsterdam Approach*), which places particular emphasis upon an exact diagnosis, followed by arthroscopy as a definite surgical solution rather than a mere diagnostic procedure. His operative techniques have spread throughout the world, and have benefited leading athletes, as well as ordinary people suffering from ankle problems.
