14.15 – Instability of ankle joint – Dr Leho Rips

14.40 – Workshop session No2 – Posterior approach to the ankle – moderator Prof Niek van Dijk

The Symposium and practical workshop will give the participant the most recent and up-to-date overview about most common sports-related pathologies around the ankle joint.

Our invited quest speaker **Prof Niek van Dijk** has won renown as a leading authority for arthroscopic surgery of the ankle and the knee. In particular, he is known for his *Amsterdam Ankle School* (the *Amsterdam Approach*), which places particular emphasis upon a painstaking diagnosis, followed by arthroscopy as a surgical resource rather than a mere diagnostic. His operative techniques have spread throughout the world, and have benefitted leading athletes, as well as ordinary people suffering from ankle problems.
